## HANDLING PRECAUTIONS YOU SHOULD OBSERVE

### CAUTION

- Do not operate the remote control starter system without removing the car cover from the car. It can cause the battery heat up then reduce service life.
- Do not cover the car cover while charging. It can obstruct the air flow that cause the battery heat up then reduce service life.

### ADVICE

- Always use the car cover with the front surface up, as this surface is color-coated.
- When dust etc. becomes attached to the car or the rear of the car cover (white), this should be removed with a feather duster or a soft cloth etc. before use in order to keep the car paint from being scratched.
- Avoid using under strong sunlight while the car and/or the car cover is wet. This may have a bad influence onto car and car cover.
- In case of use with a new car, damage to the paint surface is to be feared from friction by wind etc. For two to three months, pay sufficient attention to the car cover application method and the car cover fixing method.
- Avoid using at the time of strong wind, as flapping of the car cover caused by strong wind can damage the paint surface.

### INFORMATION

As the car cover is not perfectly waterproof, always remove the car cover after severe or long rain and dry it well (also wipe the car paint surface well).
